PROFESSIONAL SUMMARY

Experienced iOS Developer with a focus on Swift and SwiftUI, adept at leading teams and delivering high-conversion mobile applications. Proficient in web development using Angular and TypeScript. Demonstrated success in optimizing app performance and user experience. Passionate about expanding skills and staying updated with diverse mobile technologies.

WORK EXPERIENCE

iOS Developer   2023 - Present

AccelOne, Remote, Australia

- Deployed 10+ major features for native iOS applications using Swift, SwiftUI, and UIKit.
- Collaborated with the QA team to implement automated testing procedures, resulting in a 20% decrease in post-release bugs.
- Executed comprehensive code refactoring initiatives, optimizing performance, and achieving a 30% reduction in app loading times.
- Achieved and maintained a minimum code coverage of 80%+ through comprehensive unit testing.
- Utilized SwiftUI's declarative syntax to create dynamic and adaptive UI components, enhancing visual appeal and reducing development time by 30%.

iOS Developer   2021 - 2023

Tienda Crypto, Buenos Aires, Argentina

- Managed a team of 2 developers and conducted reviews to ensure code quality, design standards, and industry best practices.
- Independently built a crypto exchange native iOS application (MVP) with a crash-free rate exceeding 99%.
- Delivered an outstanding 30% conversion rate in the AppStore, demonstrating effective marketing and strong user appeal.

Electronic Banking Analyst   2019 - 2020

ICBC Argentina, Buenos Aires, Argentina

- Collaborated with software development teams to integrate new features into the electronic banking platform, ensuring a seamless user experience.
- Conducted user acceptance testing (UAT) for software updates, identifying and reporting bugs, resulting in a 15% reduction in post-release issues.
